

ENVIRONMENTAL POLICY

As a small ecological consultancy Milner Ecology Ltd is inherently committed to minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Minimize toxic emissions through the selection and use of our fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst our customers and suppliers.
- Source and promote a product and services range to minimize the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.

As a company we are committed to constantly review and implement working procedures to:

- Conserve raw materials.
- Reduce pollution.
- Save energy.

As a company we ensure where possible:

- Bought-in paper is of a recycled content.
- We operate recycling of all paper waste.
- We operate recycling of all card, cans and plastic waste.
- Our office cleaners use green cleaning products.
- All printers and computer settings are pre-set to black print as default.
- All reports are issued in electronic format as default.
- All screens are switched off at night.
- All lights are switched off at night.
- All ink cartridges are recycled.
